

RYAN MORRIS

Red Seal Electrician

Dear Sir/Madame

Please find included my resume for a maintenance position with Fraser Health Authority.

Ideally, I would like to be considered for the Full time Supervisor, Facility Maintenance Operations position, however, I would be willing to accept a position Maintenance.

Along with the experience outlined in my resume, I have been employed in both Union and Non-Union settings. I have a good comprehension of provisions in Collective agreements and also an understanding of the grievance process.

A good majority of my apprenticeship was spent working in Hospitals in both new builds (T.A.C.C - Women & Children's Hospital) and also retrofitting into existing infrastructure (Surrey Memorial Hospital new M.R.I. ward).

In the second/third year of my apprenticeship, at T.A.C.C., I worked in both a lead-hand capacity of a crew of 18 journey persons/apprentices and also as Quality Assurance/Quality Control based on my abilities to efficiently delegate tasks and also my attention to detail.

Most recently, while working in the capacity of Partsperson/Maintenance Helper, I learned how to utilize C.M.M.S (Upkeep), to create work orders and also to enter data (such as parts and materials) to increase department efficiency.

I would very much like to discuss opportunities available with Fraser Health.

To schedule an interview, please call me at [phone]. The best time to reach me is between 9am and 5pm, but you can leave a voice message at any time, and I will return your call.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Ryan Morris
