## FOUNDER/INNOVATOR - PIPE-PAL TOOLS & ACCESSORIES INC.

### OBJECTIVE

To utilize skills that I already possess and learn new skills as I pursue my Partsperson Red Seal.

### EXPERIENCE

#### FT Synthetics (Partsperson/Maintenance Help). (2022-PRESENT)

- Responsible for inventory control and assisting maintenance associates with locating/ordering parts and materials required for maintenance.
- Creating layout of maintenance area to facilitate an efficient and organized method of obtaining requested parts (no system was initially in place at time of hire).
- Receiving items, verifying order is correct, inputting items as being received into accounting system, inputting parts into CMMS systems, putting items away into specific area locations for easy location.
- Emailing supervisors and admin regarding parts requests.
- Connecting existing work orders to part request purchase orders and informing maintenance staff that their parts/materials have been received.
- Dealing with vendors and setting up V.M.I.'s with them to determine minimum and maximum stock quantities.
- Coordinating tasks with different departments.
- Dealing with vendors to obtain parts outside the above scope.
- Receiving ordered items and preparing items to be shipped out, including contacting outside delivery companies to arrange shipments of such items.
- Using forklift and or crane to transport parts (certified August 2022).
- Identifying parts.
- Supervising and delegating duties to contract helpers.
- General duties such sweeping, cardboard disposal.
- Completing shift report at end of shift outlining work duties performed that day.

#### PIPE-PAL TOOLS & ACCESSORIES INC. (2021-PRESENT)
